

Product Comparison

At electronic **caregiver™**, we want to offer the best medical alert system people can buy. The chart below lists the benefits of our product and how the competitors stack up against us.

In addition, the electronic **caregiver™** premier offers exceptional customer service to offer customers a local representative for parts and support.

Also, if there is not a representative in the area, we offer free shipping and unlimited replacement for warranty support. The premier comes in 5 color choices for the pendant.

The GPS handset gives immediate response to an emergency and the operators will stay on the line until help arrives. The Family Caregiver mobile app gives customer's families the opportunity to see they have arrived at familiar places and get alerts on device low batteries.

The premier unit will also announce custom medication reminders with monitored notifications. Finally, the system also offers unlimited access to the physician on demand service.

The electronic **caregiver™** premier is the only system that can offer all these great benefits. No other competitor even comes close.
